### EDUCATION

2016 - 2020

AKTU, LUCKNOW

- Bachelor of Technology (CSE)

### SKILLS

- Angular2+, ReactJS, Ionic, Lit, Javascript, Typescript
- NodeJS, NestJS, Redis
- PostgreSQL, MongoDB
- Github, Bitbucket, Gitlab
- Bootstrap, Tailwind CSS, ShadCN UI
- Jira, Gitlab, Trello, Slack
- AdobeXD, Zeplin, Figma

### LANGUAGES

- English (Proficient)
- Hindi (Proficient)

### SUMMARY

I am a Full Stack Developer with 5.7 years of comprehensive experience in building scalable, high-performance web and mobile applications. I have a proven track record of leveraging technologies like Angular, ReactJS, NodeJS, and NestJS to improve efficiencies and reduce costs significantly. My strong analytical skills coupled with mentoring capabilities have allowed me to deliver successful outcomes on projects while fostering team development.

### WORK EXPERIENCE

#### Unthinkable Solutions

OCTOBER 2019 - PRESENT

Sr. Associate - Software Engineering

- Software Engineer with 5.5+ years of experience delivering full-stack web and mobile applications across diverse industries including government, transportation, and hospitality.
- Successfully contributed to 10+ major projects, including initiatives by the Government of India and global enterprise clients.
- Proficient in Angular, ReactJS, NodeJS, NestJS, Redis, MongoDB, PostgreSQL, Ionic, and Lit, with strong skills in designing scalable architecture and reusable components.
- Mentored and trained 30+ new hires in technologies like JavaScript, Angular, ReactJS, and NodeJS, contributing to faster onboarding and team productivity.
- Recognised for building reusable tools that improved development efficiency, saving up to 70% in vendor costs and reducing form development time by over 60%

### PROJECTS

#### UMANG | Angular Developer

DECEMBER 2019 - JUNE 2021

A national digital governance platform by NeGD

- Developed modules for high-traffic services like Digilocker, EPFO, and Aaple Sarkar on UMANG, a national digital governance platform.
- Designed and implemented a JSON-based form builder that reduced the development time and testing time by 60%, and is still in use across the platform.
- Ensured scalability, dynamic validation, and adherence to UI guidelines for the form renderer tool.
- Tech Stack: Angular 2+, AngularJS, NodeJS

#### SEAMFIX | Full Stack Developer

JULY 2021 - SEPTEMBER 2023

SaaS platform automating complex workflows

- Led end-to-end development of modules, improving data processing speed for millions of records using Redis and BullQueue.
- Built scalable UI with Angular, Ionic and Lit, enhancing user experience and system performance.
- Recognised by the client for delivering high-quality code; methodologies were documented and circulated internally.
- Tech Stack: NestJS, Angular, ReactJS, MongoDB, PostgreSQL, Redis, Ionic, Lit

#### CHALO | Full Stack Developer

OCTOBER 2023 - NOVEMBER 2024

Public transport solutions by Chalo Mobility

- Built and maintained the AFCS dashboard used by operators for managing ticketing, seat layouts, fare matrices, and live bus tracking.
- Delivered high-impact backend services and user-friendly frontend interfaces, contributing to smoother operations across 1000+ bus routes.
- Tech Stack: ReactJS, Angular, NodeJS

#### INTOUCH - RESTOPAY | Frontend Developer

DECEMBER 2024 - PRESENT

Hybrid Restaurant App

- Developed a cross-platform app using ReactJS and Ionic for managing food orders, room service, deliveries, and food courts in restaurant enterprises.
- Implemented multi-role workflows (waiter, chef, manager) into a single unified platform, improving operational efficiency by 30%+.
- Collaborated with product teams to ensure seamless UX across devices.
- Tech Stack: ReactJS, Ionic
